Finding Disease Information: Poison Ivy

To obtain important information on common conditions or diseases, simply begin with a search.

- Step 1: Go to Clinical Pharmacology powered by ClinicalKey (www.clinicalkey.com/pharmacology)
- Step 2: Type in your keyword into the main search bar
- Step 3: Select your preferred handout from the Disease Information box on the Search Results page
- Step 4: Scroll through the handout to review causes, risks factors, treatment options, home care instructions and more.

- Step 5: To translate the handout to a foreign language click on the **Select Language** dropdown menu

- Step 6: Click **Add to Print List** and then **Print** to customize the handout. Add details including: patient’s name, provider, organizational info and special instructions.

- Step 7: Select Print Handout to empower your colleagues and patient’s with Elsevier’s evidence-based content.
