Quick Start Guide

ClinicalKey Student is an interactive education platform that enhances the learning and teaching with tools tailored to develop and assess your students' knowledge and understanding. Follow these simple steps to get started.

1. Launch ClinicalKey Student
   - Click the ClinicalKey Student link within your learning management system
   - When prompted, confirm the pre-populated details including your name and email address

     Tip: Go to clinicalkey.com/student/registration to enter your details and create your unique password in order to access your account directly from ClinicalKey Student

2. Build your first assessment
   - Designate a specific name that relates to your course
   - Filter questions on specific keywords or select from one of the multiple topics
   - Preview individual questions before you add them to the assessment
   - Assign to individual students by clicking 'Edit Assignees'
   - Set the 'available' and 'due' date range

     Tip: All students in your course are assigned by default
3 Tracking results

- Click the 'Assessments' tab
- Select either 'Upcoming' (still due) or 'Previous' (past due)
- Select the more options icon to view student scores, export scores, and edit or delete the assessment

Tip: Content to support students in areas they are struggling with can be found by clicking on

Tip: Don't forget you can toggle between courses in the course drop down menu

4 Share content with students

- Search for an anatomical structure or medical condition
- Filter by type to view related book, image and video content
- Narrow search results by specialty to identify relevant content
- Select a book chapter and click the link to copy a link and paste it into your lecture material

Tip: Quick access summaries are available to help students get to grips with key medical conditions
